

Omnis Managed Portfolio Service

- Cautious

November 2024

Portfolio Objective

The Service is designed for a cautious investor, who should have:

- Limited experience of investment products, and is probably more familiar with bank and building society accounts.
- An understanding that in general terms investment products should be held for a minimum period of five years.
- A preference for outcomes that have a degree of certainty, although they will understand that their investments could rise or fall.

The Service aims to improve total returns and actively manage short-term risks through increasing or decreasing holdings in asset classes and individual funds. These allocations are determined by the Omnis Investments Limited investment team, which benefits from full transparency of the funds' underlying investments, and is controlled through a strict governance framework.

Risk Range

The Openwork Partnership will risk-rate investors based on their answers to a number of questions and appropriate validation.

○ Limited risk
 ○ Cautious
 ○ Balanced
 ○ Adventurous
 ○ Speculative

This portfolio is risk-rated as Cautious

Portfolio	10.96%	0.09%	-11.53%	10.18%	-0.61%

The above figures show the indicative performance of the portfolio, which includes all asset allocation trades. Your individual performance will depend on the date of your investment.

The last 12 months...

When investing, it is always important to take a medium to long-term perspective. This is because shorter term periods can be much more volatile and deliver lower and sometimes negative returns, as illustrated by the rolling 12-month periods shown above.
